# Two Projects

## Rocky and Debian

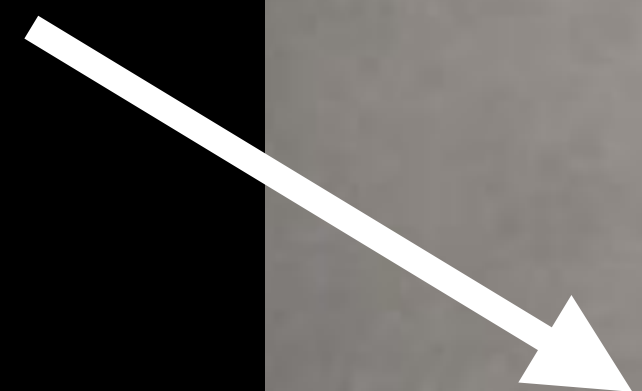

[github.com/somanydoors/custom-live-cd-debian](https://github.com/somanydoors/custom-live-cd-debian)

[github.com/somanydoors/custom-live-cd-rocky](https://github.com/somanydoors/custom-live-cd-rocky)

**Why these two?**

**Party in back  
(Debian)**

**Business in front  
(Rocky)**

# Some Notes on Project Status

These projects are in a working alpha state

I did not test non-default options

I am a bad programmer

**Why do this?**
